

JW Alderman Photography
Simple Moments. Timeless Memories.

General Information

Prices are subject to change.

All of the images are matted and mounted. Please order by your intended frame size. Prints will be appropriately sized for the mat. Portraiture prints are digitally matted with a black or white mat. If you wish to have another color please let me know. Fine art is hinge mounted & matted with mat board in black or white (normally).

Portraiture is printed with studio mark & fine art is hand signed & numbered. Textures, coatings & paper types are determined on a print by print basis at creator's discretion. Each image is individually edited. Portraiture comes standard with Tier 1 retouching. Additional retouching available, ask for a quote.

Some sizes are not available for all images. Please allow extra time for larger images. Collage sizes are only available for collages at the indicated ratio: 1:2, 1:3 or square.

All digital products are in a custom case with custom printed disk(s). With digital images, I retain the copyright, but included on the disk is a reproduction release for personal use. Low resolution companion files will be included on the disk for personal internet usage (except for weddings). Wedding disk pricing differs, but print pricing is the same.

Portraiture Print Pricing

<i>Product</i>	<i>Price</i>	<i>Notes</i>
